Subject Tracking for Sponsor, ... STUDY SCHEDULE FOR 28123-2P.do... STUDY SCHEDULE FOR 28123-2P1.d...

Deborah, Bettie and Bob,

Due to the holidays, some changes of scheduled visits for subjects on ECHJLI/02/02 needed to be made. I had a discussion with Bettie the other day and was unaware, at that time, that PHX needed to move 3 visit dates. I apologize. Group 2P will now return for cigarettes only on 20 Dec and their 6 month visit has been moved to 04 Jan. Group 2P1 will now return on 20 Dec, for cigarettes only.

Attached are revised Subject Tracking Logs and Study Scheduled for Groups 2P and 2P1 of ECHJLI/02/02.

I have spoken to William and he has assured me that Bob knows of the changes to the schedule and has made arrangements to be in PHX on 20 Dec and 27 Dec. William also assured me that the sputum processor and ENT physician have been notified and accepted the new dates.

Again, I apologize for any inconvenience.

Thanks
Kim

As a follow up to previous E mails, we are planning on shipping kits containing the new lighters to each location on 12/18. Phoenix will receive 31 kits and Lincoln will receive 54 kits. These kits will have a small red dot on one end of the outer box to distinguish them from kits you currently have in inventory. Each location will also receive an additional 30 heaters. Please begin distribution of the new lighters with the 1L1 group in Lincoln on their 12/23 visit. Bob Maher will be in Lincoln on 1/3 when that same group returns to download data from the new lighters just in case there are any problems. Similarly, please begin distribution in Phoenix with the 2P1 group on their 12/23 visit. Bob will be in Phoenix when that group returns on 12/27. After the data has been downloaded and we have established that there are no serious issues with the new chips, you may begin distributing the new lighters to the other groups on their next visit at each location. If all goes as planned, we should have all new lighters distributed by mid January. Please collect the old lighters from study participants as you distribute the new lighters. Once you have collected all of the lighters please return them to the attention of Bob Lee at our location in Ashland, Va. Also, please return all unused lighters you have in inventory. It is not necessary to return heaters, batteries, chargers etc. Please keep all of the spare parts you currently have in inventory. If

there are any lighters that cannot be accounted for, I will need a list of their serial numbers.

Thanks for your help in this transition period. I hope everyone has a happy and restful holiday.

Bettie,

Do you want us to send back the "old" ACCORD lighters? When and to whom?

Thanks
Kim

Kim and William,

Mid-December a supply of study materials will be shipped to each of your sites. The lighters will contain a newer chip model. The change should be seamless to the operation of the study, however, Bob Maher will come to each site at the first check-in to make certain that things go smoothly. He will arrive in Phoenix on 12/27th and in Lincoln on 1/3.

Please, let me know if there are questions.

With best regards,
Bettie
